Long term disability insurance: why is it so important?

Safeguard your salary in just a few easy steps. **MetLife Long Term Disability Insurance** can help protect your income if you are unable to work due to a major injury, chronic condition, cancer or extended illness. Coverage is easily accessible and monthly payments quickly allow you to cover everyday expenses. You receive disbursements directly and can use the money on whatever you like, from groceries and gas to your mortgage.

Why it pays to have long term disability insurance:

- The majority of long-term absences are due to illnesses, such as cancer, heart attacks and diabetes.¹ Additionally, more than one in four of today's 20-year-olds can expect to be out of work for at least a year because of a disabling condition before they reach normal retirement age.²
- Given its strict definitions of what qualifies as a disability, federal help may be unavailable. You might receive Social Security benefits only if you are unable to work in any occupation — not just your own — for at least a year due to a disability.³

Long term disability insurance can help you cover essential living expenses, protect your savings, your home and other assets, and help you avoid having to borrow money from friends or family. It's easy to enroll and can help ensure you still receive part of your salary to cover your expenses.
